Your feel amazing, bursting out of your skin to embrace the day. With your superb sensations to choose from, personalized wellness is in the palm of your hand. All in a beautiful environment where sensual curves interplay with contemporary lines. An experience to arouse the senses.

Star-patterned water holes

Clever water outlet

Innovation

Star-patterned water holes in the nozzle provide more harmonious water coverage and greater comfort.

Clever water outlet to prevent water remaining in the soap dish, a clever hole allows the water to evacuate the dish, leaving it clean.

Unique new massage function

Enjoy a more invigorating thorough massage with double the strength of a average shower massage function. A unique turbine mechanism means double the action and speed as nozzles work in tandem to offer more homogenous functioning and ample effective coverage.

Wellness offer

Indulge your senses in a shower experience you control – start with a soft rain shower and finish with an energizing massage or whatever suits your mood. For jets with varying water pressure and width change at the touch of your hand as you like, how you like, whenever you like.

Design

Powerful straight lines and sensual curves give birth to a unique new design code. The entire design from general silhouette to accessories such as the slider and the soap dish, reflecting this minimalist philosophy. Even the new handspray has a new edge with stunning, infinity-shaped curves in a square body.

Functionality

Changing sensations in the palm of your hand. Ergonomically designed to fit in your palm and with a spray function that changes at a simple movement of your thumb, changing from a relaxing rain-shower to an energizing massage is so practical and easy. It's like a dream.

Unique soap dish design

For optimal space and comfort, a clever indent in the soap dish allows for simple, neat positioning of the hose. It simply clips into the indent to allow you more room for showering the body. Easy to remove and replace it simply clips off for washing down the shower of bath after use.
